- etc...

How does it work?

A simple (free) registration on our website [Entrepairs.fr](https://www.entrepairs.fr) and you have access to the advertisers' contact details to work directly with them.

Didn't find what you were looking for in our database? Contact us and we will certainly be able to guide you. You also have the possibility to publish your tender!

With Entrepairs there are no intermediaries or commissions, work in direct relationship!

Subcontractors

Do you want to develop your business? Entrepairs can help you with its network of industrial subcontractors.

With Entrepairs you:

Master the relationship
(direct contact)

Choose the equipment on
which you wish to
communicate

Stay in control of your
your machines and
your schedule.

Use Entrepairs to:

- Reduce your production costs by optimising your machine load.
- Develop and diversify your customer base.
- Generate additional revenue.

How does it work?

It's easy, just register on Entrepairs.fr and fill in the industrial equipment you're accepting loads on. Or call us and we'll take care of everything!

Our team is here to help you, to write the content of your ads and to answer all your questions. Please feel free to contact us!

**With Entrepairs there are no intermediaries
or commissions, work in direct relationship!**

Entrepairs, Industrial Facilitator

Entrepairs is an industrial subcontracting and load-sharing network. We reference different companies' production capabilities and present them to buyers. This provides two advantages: subcontractors can optimise their machines and diversify their client base, and purchasers can obtain shorter manufacturing turnover with trustworthy companies.

Why Entrepairs

Promoting manufacturing

We are dedicated to maintaining industrial jobs and the expertise they provide.

Towards an ecological transition

We also want to help industrial production adapt to ecological imperatives by encouraging short industrial channels.

Fluent and efficient services

Our methods to smoothly push back boundaries: practical tools, advice, friendliness, and business!
